

Neutral products for cleaning and degreasing

FAMSKIN[®] TN 20

FAMSKIN[®] TN 20 is liquid neutral to mild alkaline product made on the basis of components for wetting and emulsifying of oily and dispersing of solid impurities. Used components and composition ensure efficient degreasing, while the liquid consistency is convenient for handling.

ADVANTAGES

- Effective at room temperature and at elevated temperatures,
- It does not contain solvents and other easily volatile components,
- It provides efficient degreasing and it is stable in hard water,
- Increased foaming enables easy removal of impurities,
- Multipurpose product for cleaning floors and other greased surfaces,
- It does not have effect on light and non-ferrous metals,
- It does not contain silicates and nitrites,
- It contains phosphates.

QUALITY LEVEL

FAM FSP 23213

APPLICATION

FAMSKIN[®] TN 20 is applied for degreasing all metals, plastics, rubber, wood and ceramics by rinsing manually and by washing automaton. The product is intended for impurities degreasing: petroleum and petroleum derivatives, oils and greases. It is suitable for cleaning the production hall floors, external washing of coloured parts and tarpaulins of transportation vehicles. It is suitable for cleaning in cases when using solvent is not recommendable such as: cleaning of external surfaces of coke batteries and similar bulky equipment in steel works and forging plants, rubber and plastic parts. It is used diluted with water in concentrations of 10-20 % or concentrated, at room temperature or heated up to ca 60°C, depending on point of application and degree of impurity.

TYPICAL CHARACTERISTICS

CHARACTERISTICS	UNITS	FAMSKIN[®] TN 20	METHODS
Appearance	-	clear liquid	visual
Density at 20°C	g/ml	1,055	SRPS EN ISO 3675
pH of the concentrate	-	8	SRPS H.Z1.111
Effect on metals	-	No effect: Al, Cu plastic materials	FAM MO 2250

STORAGE

Store in a confined space. Do not store at elevated temperatures, nor in places exposed to direct sunlight, nor at temperatures below 5°C. All necessary instructions can be found in the Safety Data Sheet. It contains details of possible hazards, warnings and first aid measures, as well as the environmental impact and the necessary measures when storing.

PACKING

Plastic canisters of 20 kg and 50 kg.

Data are orientational, manufacturer reserves the right to make changes in order to improve product quality.
